EXPERIENCE

Web developer for Mediaclash

 Bath  January to May 2016

-  HTML5, SASS/ CSS3 & JS responsive
-  DjangoCMS
-  Git
-  Web agency

I was responsible for the front end of the agencies' websites, in a team with a back end developer. My tasks were to translate designs into web pages and to work along with the designer to create eye catching presentations.

Junior Web developer for Abel and Cole

 London  January to September 2015

-  HTML5, LESS/ CSS3 & JS responsive
-  Asp.net MVC
-  Subversion
-  Agile
-  Fast paced project

I was part of a team responsible for delivering a new version of the website, making it responsive, easier to use and with a MVC design back-end. I was responsible for most of the development of the front end, including writing a code that was clean and well structured, focused on modularity and re-useability with LESS for the CSS and a 'module pattern' for the Javascript.

Rich Media Tester for Opera Mediaworks

 London  July to December 2014

-  HTML5, CSS3 & JS responsive
-  Git
-  Manual testing & network traffic analysis

I was part of the team responsible to test ads to be published on mobile apps, insuring of the quality of the front end on a wide range of devices and of the tracking implementation. It implied, in some cases, analysing and adapting the test tools to a new SDK. I also supported the development team by developing ads in HTML/CSS/JS.

Free lance Web developer-designer

 Toulouse & London  since January 2013

-  HTML5, CSS3 & JS responsive
-  Handcoded OO PHP
-  MySQL
-  Client relation & technical support
-  CMS, Wordpress, Joomla, Magento
-  Wordpress theme and plugin development
-  Social media's API

I work closely with the clients, translating their ideas into eye catching, accessible and optimised to differents devices concepts. I focus on researching, or hand coding if necessary, stable and performant solutions. My portfolio is available on my website: www.declics.eu
